

IN-EAR MONITORS

MODEL • • EM-3

DESCRIPTION • •

The EM-3 is a professional grade earphone system that features high sensitivity, full range response across all frequencies, durable design, and comfortable styling for extended wear applications.

The EM-3 is designed for professional musicians, performers and discerning users of portable digital music players such as MP-3 and i-Pods. The EM-3 features a unique "ear guide" which channels the cable over the ear for increased comfort and stability. The ear-guides reduce stress on the cable at the ear helping to keep the transducer properly positioned for optimum performance and reduced ear fatigue.

The cable is of a special kink-free design and is lightweight yet very durable. The EM-3 earphones are ideal for use with HEAR and Aviom personal mixing systems.

FEATURES • •

- High Output
- Superior comfort
- Ear-guides reduce fatigue
- Kink-free cable design
- Extended low frequency

EXCLUSIVE WEARING OPTION • •

Wearing options include comfortable "ear-guides" to position cabling over the ear and out of the way.

Ear guides exclusively available from Point Source Audio.
