

Model # **EO2-8WL**

U.S. Pat: D786,220 and 9,706,285

NOTE: Products pictured are for illustrative purposes and may not exactly represent the product you have purchased.

IS YOUR MICROPHONE WATERPROOF?

Look for the **W** (Waterproof) as part of the model number on the white tag located near the end of the mic cable.

"W" indicates Waterproof

Sound waves cannot pass through water so you must clear whatever is blocking the mic aperture by gently shaking out the water and allowing the microphone to air dry.

Water & Windscreens

Windscreens are highly recommended in heavy water usage where it is expected that water will very likely flood the aperture.

Model #: 6-WSNr
Foam Windscreens

CUSTOMIZING YOUR MICROPHONE FOR OVER EAR CONCEALMENT

1

Cut directly at the corner elbow using wire clippers.

2

Press cable (not the element) into the trench until reaching the exit.

3

Attach the Finishing Cap to trimmed end of the Earmount.

4

Shape Earmount so mic sits over the ear, and bottom secures **behind** the ear.

5

To remove X-Connector, grasp both ends and twist.

CABLE CARE

Use care when storing your microphone; coil the cable so that it rests flat.

DO NOT wrap the cable around the body pack or coil the cable in any way that creates serious bends or strain on the cable.
