IS YOUR MICROPHONE WATERPROOF?

Look for the **W** (Waterproof) as part of the model number on the white tag located near the end of the mic cable.

"W" indicates Waterproof

Sound waves cannot pass through water so you must clear whatever is blocking the mic aperture by gently shaking out the water and allowing the microphone to air dry.

Water & Windscreens

Windscreens are highly recommended in heavy water usage where it is expected that water will very likely flood the aperture.

Model #: 6-WSN
Foam Windscreens

MIC'ING YOUR LAVALIER

The latest in our collection of petite element mics, this miniature microphone can be hidden easily.

For best performance, position mic as close as possible to the sound source.

Proper positioning will provide for an optimal signal-to-noise ratio.

CONCEALMENT OPTION

ALL PSA lavalier microphones are compatible with EMBRACE™ earmounts. The patented ear mounting system keeps the mic placement consistent to the mouth as with traditional headset style mics. This innovation is the best of lightweight and low-profile lavs combined with the consistent placement of earmounted microphones.

Model #: EMB-6/12/24

Embrace earmounts are available in 6, 12 or 24 packs.

PROPRIETARY HARDWIRED LEMO-STYLE CONNECTOR

PATENT
PENDING

Accelerated life tested to 12,000 bends.
DO NOT apply additional strain relief.

CABLE CARE

Use care when storing your microphone: coil the cable so that it rests flat.

DO NOT wrap the cable around the body pack or coil the cable in any way that creates serious bends or strain on the cable.
